

“The Speed Pocket™ in JetSpeed fairway woods promotes fast ball speed, and the shallow face and low-profile head make them easy to launch. All of that allows them to combine distance and playability better than any fairway we've ever created.”

**TODD BEACH**  
VICE PRESIDENT, METALWOOD R&D

## Our Longest and Most Playable Fairway Woods—Ever

- ▶ New and more efficient Speed Pocket design promotes fast ball speed for long distance.
- ▶ Low-and-forward CG promotes fast ball speed and low spin for optimal launch conditions.
- ▶ Ultra-high strength JetSteel face promotes fast ball speed for long distance.
- ▶ Low-profile head design with shallow face promotes easy launch for outstanding playability.
- ▶ Matrix Velox T 69 shaft increases feel and club control for increased distance, accuracy and playability.
- ▶ Speed Pocket, low-forward CG and shaft specs work together to promote long distance and easy playability.

### LOW AND FORWARD CG PROMOTES HIGH LAUNCH WITH LOWER SPIN

#### SHAFT
