

# JET SPEED RESCUE™

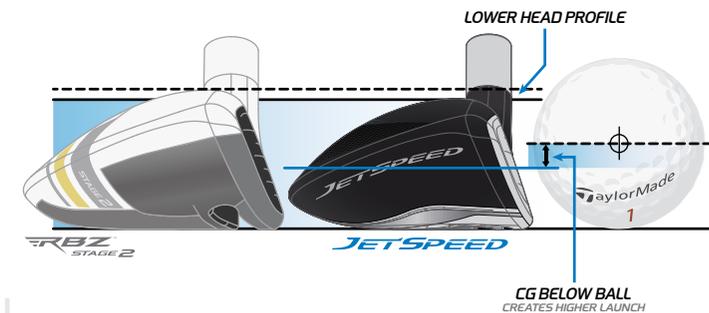

“The shallow face and low CG make it easy to make contact below the ball’s equator for easy launch, while the Speed Pocket promotes fast ball speed for long distance.”

**TODD BEACH**  
VICE PRESIDENT, METALWOOD R&D

## The Speed Pocket™ Makes Them Long

- ▶ New and more efficient Speed Pocket design promotes fast ball speed for long distance.
- ▶ Low-and-forward CG promotes fast ball speed and low spin optimal launch conditions.
- ▶ Ultra-high strength JetSteel face promotes fast ball speed for long distance.
- ▶ Low-profile head design with shallow face promotes easy and high launch for great playability.
- ▶ Matrix Velox T shaft-weight varies by flex to promote maximum feel and control at different swing speeds.
- ▶ Speed Pocket, low-forward CG and shaft specs work together to promote long distance and easy playability.

### SHALLOW FACE FOR INCREASED PLAYABILITY
