

TOUR
PREFERRED WEDGES

“ We spent more than three years working with Tour pros to meticulously dial in the shape, dimensions and two new sole designs of our new wedge. That and the new raw Micro-Texture face make this club truly worthy of the name Tour Preferred. ”

PRODUCT CREATION - IRON & WEDGES

Timeless Shaping—Next Gen Performance

- Optimized microtexture face promotes added spin for increased control in the scoring zone.
- Most aggressive groove TaylorMade has ever produced for exceptional spin and control on all shots.
- Traditional head shape and design looks beautiful from every angle.
- **Grind option 1:** New classic grind with traditional shape, heel relief and Tour-proven bounce options.
- **Grind option 2:** New ATV grind with refined ATV sole created with Tour pro input and validated at every skill level.
- Soft 304 stainless steel construction with raw Tour Satin finish
