

IVI4 DRIVER

STRAIGHT DISTANCE + ULTIMATE FORGIVENESS

From the Tour to the amateur golfer, distance with consistency is the ultimate performance goal. With M4 driver, we have combined our revolutionary Twist Face technology with a new Hammerhead slot and a refined Geocoustic sole design to produce straight distance with a massive sweet spot. The result is consistent driving performance through a premium blend of power, forgiveness, and accuracy.

BRIAN BAZZEL | VICE PRESIDENT | PRODUCT CREATION

TWIST FACE

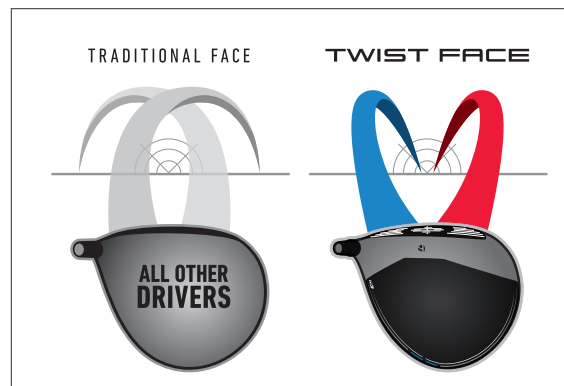

- Revolutionary new face curvature with a corrective face angle on off-center hits, engineered to reduce side spin and deliver straighter shots
- Twist Face provides more loft in the high-toe and less loft in the low-heel to produce more consistent spin where golfers commonly mis-hit

HAMMERHEAD SLOT

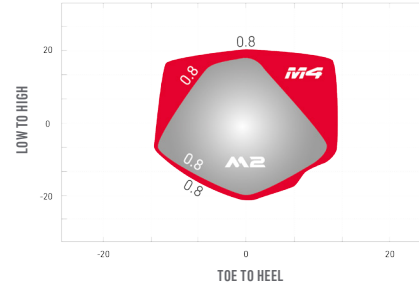

- The reinforced outer portions of the slot allow for a lighter, more flexible face, resulting in a larger sweet spot
- The center portion of the slot increases ball speed low on the face and drops unwanted spin for more distance

GEOACOUSTIC

- Shaped for a solid and explosive sound
- Reduced sole volume enables a larger, more forgiving face

Compared with M2, M4 Driver with Hammerhead has a **67% LARGER COR AREA**
