SPEED INJECTED FOR MAXIMUM FORGIVENESS

The Speed Injection technology + Twist Face delivers a hot, yet accurate performance package in the new M6 driver. When you combine that with added clubhead speed through advanced aerodynamics, the result is a complete driver that delivers on all fronts.

Brian Bazzel | Vice President Product Creation

SPEED INJECTED™

- Every head is individually speed tested and injected with tuning resin to optimize COR across the entire face
- The Speed Injection process is designed to maximize ball speed and distance in the M6 driver, achieving performance at or near the legal limit

TWIST FACE™

- Revolutionary new face curvature with a corrective face angle on off-center hits, engineered to reduce side spin and deliver straighter shots
- Twist Face provides more loft in the high toe and less loft in the low-heel to produce more consistent spin where golfers commonly mis-hit

AERODYNAMIC CARBON SOLE DESIGN WITH "INERTIA GENERATOR"

- Sleek, aerodynamic shaping designed to provide increased clubhead speed for more distance
- Inertia Generator stores 46g of weight low and back for maximum forgiveness
- 54% more carbon than M4 allows for more more weight to be housed within the "Inertia Generator"

HAMMERHEAD 2.0

- The new, more flexible Hammerhead slot works in conjunction with Speed Injected Twist Face to produce a larger sweet spot and preserve ball speed on off-center strikes

SHAFT

- MEN’S: FUJIKURA ATMOS BLACK 6 (X, S, R)
- MEN’S: FUJIKURA ATMOS ORANGE (S, R, A)
- WOMEN’S: TAYLORMADE TUNED PERFORMANCE 45 (L)

GRIP

- MEN’S: TM LAMKIN DUAL FEEL '19 0.620 RND 47g (ATMOS BLACK)
- MEN’S: TM LAMKIN DUAL FEEL '19 0.600 RND 47g (ATMOS ORANGE)
- WOMEN’S: TM LAMKIN DUAL FEEL COMFORT 0.580 43g
