

Qi35

MAX

FAIRWAY

FEATURES AND BENEFITS

ADVANCED MULTI-MATERIAL CONSTRUCTION chromium carbon, steel, and aluminum work together seamlessly creating the perfect blend of form and function.

4° LOFT SLEEVE has been added to core lofts giving the golfer the ability to dial in distance, flight and preferred face angle.

MODIFIED CG for improved energy transfer while a new face profile and head shape create versatility off the tee and from the deck.

NEW TSS WEIGHTING SYSTEM has been integrated in all lofts allowing for precise swing weight adjustment during stock and custom assembly.

OUR LARGEST ADDRESS SHAPE creates our easiest to launch and most forgiving fairway in the Qi35 lineup. Including Twist Face®, Thru-Slot Speed Pocket™, 4° loft sleeve and Infinity Carbon Crown provide the ultimate suite of technologies.
