

A LOOK FROM THE PAST, THAT PLAYS LIKE THE FUTURE

FEATURE	BENEFIT
New Aluminum Pure Roll™ Insert	A thicker 5mm aluminum insert offers a great sound and solid feel, and was designed to optimize roll characteristics
New Premium Patina Finish	A new patina finish that combines black nickel and copper to create a reveal on the edges and sole of the putter. This patina finish creates a rich, clean and unique look that oxidizes over time
New Signature TP Screws	The new Pure Roll™ insert is securely fastened by two screws in the cavity. This process creates a tight bond that minimizes voids or air pockets underneath the insert for more solid feel at impact
New TP Adjustable Weight System	TP sole weights will be unique to each stock length to hit a specific swing weight. 2.5, 5, 7.5, 10, 15 and 20 gram weights are available for sale separately
KBS CT Tour Putter Shaft	KBS Stepless chrome shaft offers a stiff structure designed for less twisting at impact
