P·700 SERIES

COMBO GUIDE

Whether you play for Sunday trophies or Saturday morning pride, our P-Series delivers the performance you need when it's all on the line. An added benefit is the ability to combo, or mix and match, iron sets. This chart will help identify how your lofts should be adjusted for proper gapping based on your desired level of forgiveness.

FORGIVENESS LEVEL 1	ADJUSTED LOFTS						STOCK LOFTS

LEARN IT

- Low penetrating flight
- Tour validated shape
- Blend of control and workability
- Easy to launch with mid flight
- Versatile geometry
- Great long iron replacement
- Easy to launch with high flight
- Versatile geometry
- Adjustable loft sleeve
- Iron like workability
- Players compact shape

PROGRESSIVE VS. TRADITIONAL LENGTH IRONS

IRON LENGTH NOTIFICATION

Starting in 2009, TaylorMade has offered 2 different lengths of irons referred to as Progressive Length & Traditional Length. Each length is designed to offer the best performance for a given iron design. The Progressive length is only offered in Stealth and SIM2 Max irons. Traditional lengths are used in all player iron offerings, such as our P•700 Series irons.

WHAT IS THE DIFFERENCE BETWEEN THE LENGTHS OF IRONS?

See below the actual lengths of an iron built at Progressive and Traditional specifications.

	4 IRON	5 IRON	6 IRON	7 IRON	8 IRON	9 IRON	PW	AW	SW	LW
Progressive	39.13"	38.50"	37.88"	37.25"	36.75"	36.25"	35.75"	35.50"	35.25"	35.00"
Traditional	38.50"	38.00"	37.50"	37.00"	36.50"	36.00"	35.75"	35.50"	35.25"	35.00"

WHAT IS THE BENEFIT OF PROGRESSIVE LENGTHS?

Progressive lengths offer golfers improved distance and gapping.

WHAT IS AVAILABLE IN PROGRESSIVE AND TRADITIONAL LENGTHS?

STEALTH / SIM2 MAX		P•SERIES	
Progressive Length	Traditional Length	Progressive Length	Traditional Length

GAME IMPROVEMENT IRON LENGTH CHANGE NOTIFICATION

TAYLORMADE GOLF COMPANY CUSTOM DEPARTMENT NOTICE REGARDING LENGTH MEASUREMENT

ATTENTION CUSTOM FITTERS AND ACCOUNTS!

As of 11/1/18, TaylorMade has improved the way we measure and list the overall club length for our iron products. In the past, we measured overall club length using a method referred to as the "pin length." Moving forward, we will be using the measurement method known as "ground plane." The ground plane method is the closest method to an industry standard and is the preferred measurement method of the USGA. Our goal is to simplify the club-length measurement process and improve build accuracy by switching to the preferred USGA ruler. Now matching a customer's existing club length will be easier than ever!

NEW GROUND PLANE MEASUREMENT METHOD

WHAT YOU NEED TO KNOW...

- Our lengths have changed slightly for the past game improvement irons (SIM2 MAX, SIM2 MAX OS, SIM MAX, SIM MAX OS, M6, M5).
- When compared to the specified club length of previous game improvement irons (STEALTH, SIM2 MAX, SIM2 MAX OS, SIM MAX, SIM MAX OS, M6, M5) appear longer in the specification table but are actually VERY similar in length to previous product (see below).
- Iron lengths are within 1/8" or less of the previous models.
- In order to keep the physical club lengths as close as possible to previous models, we rounded lengths to the nearest 1/8". This required some irons to get slightly longer and others to get slightly shorter.

See below a table for reference. This shows the current and prior M Series iron lengths if they were all measured on the new Ground Plane. As you can see the prior M Series Irons are within 1/8" of the physical lengths of the SIM MAX, SIM MAX OS, M6 & M5 irons.

		3	4	5	6	7	8	9	PW	AW
Prior M Series Product	M3, M4, MCGB Max	39.28	38.65	38.03	37.39	36.97	36.43	35.95	35.91	35.84
Latest Game Improvement Product	STEALTH, SIM2 MAX, SIM2 MAX OS, SIM MAX, SIM MAX OS, M6, M5	39.25	38.62	38.00	37.50	37.00	36.50	36.00	36.00	35.75

Now that we are matching the USGA method of measurement the fitting process will be easier than ever. Rest assured this will help the accuracy of orders and custom builds moving forward. If you have any questions about this change or how to get your custom order best fit for you, please do not hesitate to call our customer service team at 1-800-888-CLUB!

P•SERIES LENGTH CHANGE NOTIFICATION

TAYLORMADE GOLF COMPANY CUSTOM DEPARTMENT NOTICE REGARDING LENGTH MEASUREMENT

ATTENTION CUSTOM FITTERS AND ACCOUNTS!

As of 11/1/18, TaylorMade has improved the way we measure and list the overall club length for our iron products. In the past, we measured overall club length using a method referred to as the “pin length.” Moving forward, we will be using the measurement method known as “ground plane.” The ground plane method is the closest method to an industry standard and is the preferred measurement method of the USGA. Our goal is to simplify the club-length measurement process and improve build accuracy by switching to the preferred USGA ruler. Now matching a customer’s existing club length will be easier than ever!

NEW GROUND PLANE MEASUREMENT METHOD

WHAT YOU NEED TO KNOW...

- Our lengths are changing slightly for latest P•Series Product (P7TW, P7MB, P7MC, P770, P790).
- When compared to the specified club length of previous P•700 series irons the new lengths appear longer, however the physical lengths are slightly shorter (see below).
- Iron lengths are within 1/8” of the previous model (AW is 1/2” different as we want the align the length with the new wedge lengths).
- We have updated our graphite shaft lengths to be the same as the steel shaft builds. This effectively makes graphite shaft club lengths 1/4” shorter than the previous generation.

See below a table for reference. This shows the current and prior P•Series iron lengths if they were all measured on the new Ground Plane. As you can see the prior P•Series Irons are 1/4” longer or less than the previous generation. (+.5” in the AW).

		3	4	5	6	7	8	9	PW	AW
Prior P•Series Models	P730, P750, P770, P790 (2017)	39.13	38.63	38.13	37.63	37.13	36.63	36.13	36.00	36.00
Current P•Series Models	P7TW, P7MB, P7MC, P770, P790	39.00	38.50	38.00	37.50	37.00	36.50	36.00	35.75	35.50

HOW DO I ORDER NEW IRONS?

- If you were fit for a new iron, perfect! You don’t need to do anything except order what you were fit for.
- If you are trying to match the length of a previous P•Series set, we would recommend adjusting your club’s length by +1/4” to prevent your new irons from coming in shorter than your current build specifications.

Now that we are matching the USGA method of measurement the fitting process will be easier than ever. Rest assured this will help the accuracy of orders and custom builds moving forward. If you have any questions about this change or how to get your custom order best fit for you, please do not hesitate to call our customer service team at 1-800-888-CLUB!

WEDGE LENGTH CHANGE NOTIFICATION

TAYLORMADE GOLF COMPANY CUSTOM DEPARTMENT NOTICE REGARDING LENGTH MEASUREMENT

ATTENTION CUSTOM FITTERS AND ACCOUNTS!

As of 9/6/2019 TaylorMade has improved the way we measure the overall club length for our wedges. In November of 2018 we changed the measurement method to a 60° ground plane and we wanted to do the same for the wedges. This is in effort to continue to simplify the clubs-length measurement process and build so all products are measured the same way.

NEW GROUND PLANE MEASUREMENT METHOD

WHAT YOU NEED TO KNOW...

- The length of our new wedges would seem to be the same length as they have been in the past on paper however due to the measurement change previous wedge models are in fact +1/8" longer.
- Not all wedges have been converted over to the new measurement method. See below for details.

WEDGE	LENGTH
MG3	New Std
MG2	New Std
Hi-Toe RAW	New Std
Hi-Toe Bigfoot	New Std
Hi-Toe	Old std (+1/8" longer)
MG 1	Old std (+1/8" longer)

HOW DO I ORDER NEW WEDGES?

- If you were fit for your new wedges, perfect. You don't need to do anything except order what you were fit for
- If you are trying to match the length of a previous TaylorMade Wedge, we would recommend adjusting your club's length by +1/4" to prevent your new irons from coming in shorter than your current build specifications.

Now that we are matching the USGA method of measurement the fitting process will be easier than ever. Rest assured this will help the accuracy of orders and custom builds moving forward. If you have any questions about this change or how to get your custom order best fit for you, please do not hesitate to call our customer service team at 1-800-888-CLUB!

ANY SHAFT/ANY HEAD – IRONS

TAYLORMADE GOLF COMPANY CUSTOM DEPARTMENT NOTIFICATION

In 2022, all iron shafts are available in any TaylorMade iron head. You no longer have to worry about matching parallel or tapered shafts to a specific head. This change is meant to make it easier for you to fit the ideal shaft and head combination. Beyond that, we aspire to provide the best performing equipment for all golfers – no restrictions.

We're committed to taking performance personally for every golfer at every level of the game. This is a major step in showcasing that commitment.

HOW DOES THIS IMPACT THE LENGTH OF IRONS?

As you are aware, we offer both Progressive and Traditional length irons. We pair Progressive Length with our game improvement irons (Stealth and SIM2 Max) to deliver golfers improved distance and gapping. We use Traditional Length in all of our players irons (such as the P•700 Series) to provide consistent control and feel.

	4 IRON	5 IRON	6 IRON	7 IRON	8 IRON	9 IRON	PW	AW	SW	LW
Progressive	39.13"	38.50"	37.88"	37.25"	36.75"	36.25"	35.75"	35.50"	35.25"	35.00"
Traditional	38.50"	38.00"	37.50"	37.00"	36.50"	36.00"	35.75"	35.50"	35.25"	35.00"

In offering any iron shaft with any iron head, we will follow the same length strategy. All game improvement iron lengths will be Progressive (regardless of the shaft model) and all players iron lengths will be Traditional (regardless of shaft model).

STEALTH / SIM2 MAX		P•SERIES	
Progressive Length	Traditional Length	Progressive Length	Traditional Length
All Stock and Custom Shafts	Not Available	Not Available	All Stock and Custom Shafts

HOW DOES THIS IMPACT THE SELECT FIT TOOLS?

This will not impact your Select Fit tools. They have been designed in such a way that regardless of what shaft you fix into an iron head, it will be play the intended length (either Progressive or Traditional). The length variance when fixed into a SIM2 Max Head vs. a P•790 head (for example) is achieved through a strategic difference in hosel length.

You can fit with confidence, knowing any combination of Select Fit shaft and head will deliver the intended length for that product.

LAUNCH & SPIN

The final keys to helping a golfer gain more distance is through optimizing their launch conditions – Launch Angle and Spin Rate. To maximize distance for the golfer, the fitter should be trying to provide the highest degree of launch with the lowest spin achievable at their ball speed.

The table below shows a range of optimum launch conditions to maximize distance at varying speeds.

OPTIMIZATION CHART - DRIVER		
Ball Speed (Mph)	Launch Angle (°)	Spin (rpm)
185	10 - 14	2150 - 2800
180	10 - 14	2150 - 2800
175	10.5 - 14.5	2150 - 2850
170	10.5 - 14.5	2150 - 2850
165	10.5 - 14.5	2150 - 2850
160	11 - 15	2200 - 2850
155	11.5 - 15	2250 - 2850
150	11.5 - 15	2250 - 2850
145	12 - 16	2300 - 2900
140	12 - 16	2300 - 2900
135	12.5 - 16.5	2350 - 2950

RELATIVE LAUNCH & SPIN CONDITIONS

Fitters should also consider the swing dynamics of the golfer to understand what launch conditions are achievable. The chart below will aid fitters match up launch conditions at various swing speeds but also factoring angle of attack (AoA).

DRIVER - ANGLE OF ATTACK								
Ballspeed		-5	-3	-1	0	1	3	5
180	Launch Angle	8.5 - 10.5	9 - 11	10 - 12	10.5 - 12.5	11 - 13	11.5 - 13.5	12 - 14

	Backspin	3600 - 4000	3500 - 3900	3400 - 3800	3300 - 3700	3200 - 3600	3100 - 3500	3000 - 3400

This data was created using radar-based technology. For launch monitors using optical based technology please subtract 2° from the angle of attack when referring to this table. For example: +3 on optical-based launch monitor please refer to the +1 column on the table.

IRONS						
7 IRON BALL SPEED	RANGE OF LAUNCH ANGLE	RANGE OF SPIN RATE (RPM)	EXPECTED HEAD SPEED (MPH)	EXPECTED CARRY DISTANCE (YARDS)	EXPECTED PEAK HEIGHT (YARDS)	EXPECTED LANDING ANGLE (DEGREES)
70	19.5 (21.5) 22.5	5500 (4700) 3800	51	77	10.2	32.2°
80	19.0 (20.5) 22.0	5900 (5000) 4100	58	96	13.4	34.7°
90	18.0 (19.5) 21.0	6300 (5400) 4500	66	115	17	37.6°
100	17.5 (18.5) 20.5	6800 (5800) 4900	73	134	21	40.5°
110	16.5 (18) 19.5	7100 (6200) 5200	80	151	26.2	43.9°
120	15.5 (17) 18.5	7300 (6600) 5700	88	167	30.9	46.4°
130	14.5 (16) 18.0	7900 (7000) 6000	95	181	35.8	48.7°
140	13.5 (15.5) 17.0	8100 (7300) 6400	102	195	41.7	50.9°

Higher launch and lower spin moves generally along landing angle lines. Higher launch and higher spin will increase landing angle.

DRIVER / FAIRWAY LOFT SLEEVE SETTINGS

- Each click of the 4° Loft Sleeve increases or decreases loft by 0.5 - 0.75°
- Each click of the 4° Loft Sleeve increases or decreases face angle by 1.0 – 2.0°
- Each click of the 4° Loft Sleeve increases or decreases lie angle 0.5 – 0.75°

RESCUE LOFT SLEEVE SETTINGS

- Each click of the 1.5° Loft Sleeve increases or decreases loft 0.5°
- Each click of the 1.5° Loft Sleeve increases or decreases face angle 0.25° - 1°
- Each click of the 1.5° Loft Sleeve increases or decreases lie angle 0.5°

CUSTOM DRIVER / FWY SHAFT OPTIONS

TaylorMade will continue to offer drivers lengths of +1.75 inches, which may exceed the total 46 inch limit as defined by the USGA. Please be aware of this during your fitting sessions. If a golfer intends to purchase and use such a driver in a sanctioned competition, please alert them to the fact that it may not meet the conforming standards as defined by the USGA's Model Local Rule G-10: "In making a stroke, the player must not use a club, except for a putter, which exceeds 46 inches in length.

Advise golfers purchasing drivers at +1.75 to check local rules and/or measure their driver from the end of the grip to assure conformity prior to competing. Variables than can contribute to deviations in length measurements include grip size and/or the presence of a grip cap, such as a tracking tool.

TaylorMade will continue to offer drivers lengths of +1.75 inches, which may exceed the total 46 inch limit as defined by the USGA. Please be aware of this during your fitting sessions. If a golfer intends to purchase and use such a driver in a sanctioned competition, please alert them to the fact that it may not meet the conforming standards as defined by the USGA's Model Local Rule G-10: "In making a stroke, the player must not use a club, except for a putter, which exceeds 46 inches in length.

Advise golfers purchasing drivers at +1.75 to check local rules and/or measure their driver from the end of the grip to assure conformity prior to competing. Variables than can contribute to deviations in length measurements include grip size and/or the presence of a grip cap, such as a tracking tool.
